

GRÜNER VELTLINER FEDERSPIEL

J&G 2023

From us, for you. Inciting but nevertheless serious wines which can be enjoyed at any time day and night. Straightforward representatives of their varieties which favour drinkability to terroir. The vines of the J & G range root in sandy soils at the banks of the Danube, in between Weissenkirchen and Loiben. A Grüner Veltliner as well as a Riesling Federspiel provide the ideal introduction into the complex worlds of the two varieties: not as much shaped by terroir as their counterparts in the steep vineyards of the Spitzer Graben they are fruit driven and easy going and therefore ideal companions throughout spring and summer. Another inherent part of the J & G range is our lively and fragrant Muskateller which, once more, originates from our vineyards near to the river.

J&G (Josef & Georg)

Inviting, quaffable and fruit-driven - the Veltliner of the vineyards at the shores of the Danube is a textbook example of the versatility of this grape variety: it accompanies a variety of dishes, is companion to food and serves as everyday wine for a lot of occasions. And yet it is a little more than that, too: a harmonic, fresh and lively Veltliner, displaying pepper and tobacco aromas, invigorated further by subtle exotic flavours.
